

Personal floor scale KERN MPK · MPL

Personal scale with column for convenient,
ergonomically-optimised operation

Personal floor scale KERN MPK · MPL

Features

- This personal scale is the ideal measuring instrument for elderly care, paramedics, fitness clubs or in the private sector and can weigh overweight people up to 250 kg
- KERN MPL: BMI function to determine underweight/normal weight/surplus weight
- Weight displayed in kg or lb
- **1** Particularly flat design facilitates access
- Sturdy glass weighing plate for secure, comfortable standing position
- Easy and hygienic cleaning
- **2** Large display that is easy to read
- **2** The column, which is firmly fixed to the scale, makes it easy to operate the scale as well as to read the weighing results even under poor lighting conditions
- Easy to operate: simply tap on it – stand on it – read the weight
- Integrated AUTO-OFF function to preserve the batteries
- KERN MPL: Tare function to zero the balance
- **3** Delivered in design packaging

Technical data

- Large LCD display, digit height 28 mm
- Weighing plate dimensions W×D×H 350×350×45 mm
- Overall dimensions W×D×H 350×420×955 mm (incl. stand)
- Batteries included, 4×1.5 V AA, operating time up to 100 h
- Net weight approx. 3,8 kg

Accessories

- Cleaning cloths, alcohol-free cloths for disinfectant wiping, quick acting, based on modern quaternary ammonium compounds and effective against papova viruses. Particularly gentle on materials, and very well suited for disinfecting products which are sensitive to alcohol. Fulfill the legal requirements for occupational safety in accordance with TRGS 525/540. Packaging contents 100 pcs., size 20×22 cm per cloth, KERN MYC-01

STANDARD

Model	Weighing capacity	Readability
	[Max] kg	[d] kg
KERN		
MPK 200K-1P	250	0,1
MPL 200K-1P	250	0,1

Adjusting program CAL:

For quick setting up of the balance's accuracy. External adjusting weight required

Memory:

Balance memory capacity, e.g. for article data, weighing data, tare weights, PLU etc.

Data interface RS-232:

To connect the balance to a printer, PC or network

RS-485 data interface:

To connect the balance to a printer, PC or other peripherals. Suitable for data transfer over large distances. Network in bus topology is possible

Bluetooth* data interface:

To transfer data from the balance to a printer, PC or other peripherals

WIFI data interface:

To transfer data from the balance to a printer, PC or other peripherals

Control outputs

(optocoupler, digital I/O): To connect relays, signal lamps, valves, etc.

Statistics:

using the saved values, the device calculates statistical data, such as average value, standard deviation etc.

PC Software:

to transfer the measurements from the device to a PC

GLP/ISO log:

With date and time. Only with KERN printers

KERN Communication Protocol (KCP):

It is a standardized interface command set for KERN balances and other instruments, which allows retrieving and controlling all relevant parameters and functions of the device. KERN devices featuring KCP are thus easily integrated with computers, industrial controllers and other digital systems

Piece counting:

Reference quantities selectable. Display can be switched from piece to weight

Totalising level A:

The weights of similar items can be added together and the total can be printed out

Weighing units:

Can be switched to e.g. nonmetric units. Please refer to website for more details

Weighing with tolerance range

(Check weighing) Upper and lower limiting can be programmed individually, e.g. for sorting and dosing. The process is supported by an audible or visual signal, see the relevant model

ZERO:

Resets the display to "0"

Hold function:

When patients do not stand, sit or lie completely still, a stable weight is calculated using an average weight

Hold function:

When the weighing conditions are unstable, a stable weight is calculated as an average value

Protection against dust and water splashes IPxx:

The type of protection is shown in the pictogram cf. DIN EN 60529:2000-09, IEC 60529:1989+A1:1999+A2:2013

Suspended weighing:

Load support with hook on the underside of the balance

Battery operation:

Ready for battery operation. The battery type is specified for each device

Rechargeable battery pack:

Rechargeable set

Battery operation rechargeable

Prepared for a rechargeable battery operation

Universal plug-in power supply:

with universal input and optional input socket adapters for
A) EU, CH
B) EU, CH, GB, USA

Plug-in power supply:

230V/50Hz in standard version for EU. On request GB, AUS or USA version available

Integrated power supply unit:

Integrated in balance. 230V/50Hz standard EU. More standards e.g. GB, AUS or USA on request

Weighing principle: Strain gauges

Electrical resistor on an elastic deforming body

Peak hold function:

capturing a peak value within a measuring process

Push and Pull:

the measuring device can capture tension and compression forces

Integrated scale:

In the eyepiece

360° rotatable microscope head

Monocular Microscope:

For the inspection with one eye

Binocular Microscope:

For the inspection with both eyes

Trinocular Microscope:

For the inspection with both eyes and the additional option for the connection of a camera

Abbe Condenser:

With high numerical aperture for the concentration and the focusing of light

Halogen illumination:

For pictures bright and rich in contrast

LED illumination:

Cold, energy-saving and especially long-life illumination

Fluorescence illumination for compound microscopes:

With 100 W mercury lamp and filter

Fluorescence illumination for compound microscopes:

With 3 W LED illumination and filter

Phase contrast unit:

For a higher contrast

Darkfield condenser/unit:

For a higher contrast due to indirect illumination

Polarising unit:

To polarise the light

Infinity system:

Infinity corrected optical system

Automatic temperature compensation:

For measurements between 10 °C and 30 °C

Verification possible:

The time required for verification is specified in the pictogram

Package shipment:

The time required for internal shipping preparations is shown in days in the pictogram

Pallet shipment:

The time required for internal shipping preparations is shown in days in the pictogram
