

Stereo zoom microscope KERN OZL-47

LAB LINE

The flexible, affordable all-rounder with flexible incident light for training companies, inspection authorities and laboratories

Features

- The KERN OZL-47 stereo zoom microscope series will impress you with its excellent optical characteristics, easy operation and high level of ergonomic working comfort
- · A highlight is the powerful and continuously dimmable integrated LED double gooseneck illumination (incident light), which ensures an individually and quickly adjustable illumination.
- · As well as excellent optical characteristics and their large working surface, these models offer the highest level of comfort in this class - ideal for training companies, workshops as well as assembly and repair workstations, e.g. in the electronics industry
- The zoom objective offers you continuous magnification from 7×-45×

- The pillar stand offers you the highest level of flexibility and the freedom to remove the microscope head and to integrate it into other modular systems, for example into a universal stand
- · A large selection of eyepieces, external illumination units as well as auxiliary objectives are available as accessories
- · A protective dust cover, eye cups, as well as multi-lingual user instructions are included in the scope of delivery
- · A C-mount adapter is required to connect a camera to the trinocular version. You can select this adapter from the following model outfit list
- · Please find detailed information in the following model outfit list

Scope of application

· In vitro fertilisation, detection of parasites, zoology and botany, tissue preparation, section, quality control

Applications/Samples

· Samples with focus on three-dimesnional impression, zoom with variable magnification (depth, thickness), e.g. insects, seeds, circuit boards, components

Technical data

- · Optical system: Greenough optics
- · Brightness adjustable
- · Tube 45° inclined
- Magnification ratio: 6,4:1
- Light distribution OZL 474: 100:0
- Interpupillary distance 55 75 mm
- · Diopter adjustment: Both-sided
- · Overall dimensions W×D×H 300×240×420 mm
- · Net weight approx. 4 kg

RECHARGE

230 V

360° rotatable microscope head

Monocular Microscope For the inspection with one eye

Binocular Microscope For the inspection with both eyes

Trinocular Microscope

For the inspection with both eyes and the additional option for the connection of a camera

Abbe Condenser

With high numerical aperture for the concentration and the focusing of light

Halogen illumination

For pictures bright and rich in contrast

LED illumination

Cold, energy-saving and especially long-life illumination

Incident illumination

For non-transparent objects

Transmitting illumination

For transparent objects

Fluorescence illumination For stereomicroscopes

Fluorescence illumination for compound microscopes

With 100 W mercury lamp and filter

Fluorescence illumination for compound microscopes

With 3 W LED illumination and filter

Phase contrast unit

For a higher contrast

Darkfield condenser/unit

For a higher contrast due to indirect illumination

Polarising unit

To polarise the light

00

Infinity system

Infinity corrected optical system

Zoom magnification For stereomicroscopes

Auto-focus

For automatic control of the focus level

Parallel optical system

For stereomicroscopes, enables fatigue-proof working

Integrated scale

In the eyepiece

SD card

For data storage

USB 2.0 digital camera

For direct transmitting of the picture to a PC

USB 3.0 digital camera

For direct transmitting of the picture to a PC

WIFI data interface:

For transmitting of the picture to a mobile display device

HDMI digital camera

For direct transmitting of the picture to a display device

PC software

To transfer the measurements from the device to a PC.

Automatic temperature compesation

For measurements between 10 °C and 30 °C

Protection against dust and water

splashes IPxx:

The type of protection is shown in the pictogram cf. DIN EN 60529:2000-09, IEC 60529:1989+A1:1999+A2:2013
